

Alplus extrusion facilities are able to produce complex configurations from tiny BGA heat sink up to 20" in diameter of 6500ton.

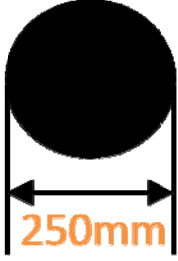

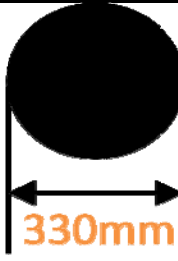

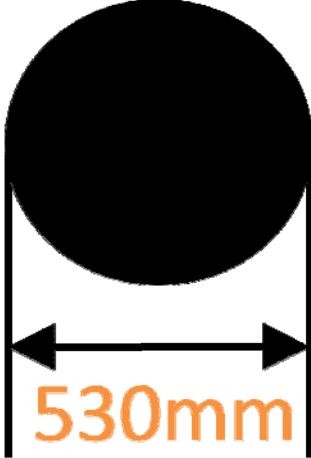

**Key Specifications/Special Features:**

- Used for industrial purpose such as heat sink, solar panel frame and machine parts
- Best quality and green products
- Different shaped products can be supplied according to customer's requirements
- Up to 6,500 ton capacity extrusion machine
- Provide various customized finishing

**Alplus INC. Extrusion Capacity Chart**

Model/Description	Max. billet dimension	Quantity
660T Extrusion	100mm 	1
800T Extrusion	105mm 	1
880T Extrusion	110mm 	1
1100T Extrusion	145mm 	1
1800T Extrusion	180mm 	1

---

2500T Extrusion	250mm		1
3600T Extrusion	330mm		2
4000T Extrusion	350mm		1
6500T Extrusion	530mm		1
